The **PG03** underwater peanut grinder is used by commercial divers for cleaning of weld joint for inspection and other precise grinding jobs.

The PG03 underwater grinder has been developed to be compact and light making it ideal for grinding welds and performing intricate maintenance tasks. The **PG03** underwater die grinder has a 6mm collet which means it can use rotary burs, flap wheels, micro cut off wheels and mounted points etc.

The tool can operate over a wide flow range (**15-40lpm**) meaning it can run off almost any hydraulic circuit. In addition, the new **PG03** comes with a removable guard for extra safety.

The power-to-weight ratio of the **PG03** brings even the toughest jobs down to size making a great tool for commercial divers.

**Part Number: SY-PG03**

| Specifications      | Details       |
|---------------------|---------------|
| Weight:             | 2.5 kg        |
| Brand:              | Hopkins       |
| Power Type:         | Hydraulic     |
| Capacity :          | 6mm Collet    |
| Hydraulic Flow lpm: | 15-40         |
| Pressure:           | 138           |
| Couplings:          | Yes           |
| Port Size:          | -8 SAE O Ring |
